

Implementing & Monitoring The Plan

5. Implementing and Monitoring the Plan

- 5.1 The plan is put into practice in a number of ways.
- a. All those considering some form of development in Liss will need to take account of these policies and shape their proposals accordingly.
 - b. Decisions on planning applications are made by the South Downs National Park Authority (with some decisions delegated to the East Hants District Council). Those decisions will have to be made in accordance with the policies of the Liss Village Neighbourhood Development Plan.
 - c. Utilities and service providers will take account of housing and business allocations in the plan in planning their own services.
 - d. Community facilities and services will be provided by developers by their financial contributions, particularly through the Community Infrastructure Levy. The South Downs National Park Authority and the Liss Parish Council will decide on the allocation of monies from the Community Infrastructure Levy.
 - e. Those involved with the management of open and green spaces, rights of way and areas of biodiversity, including the South Downs National Park Authority, the Liss Parish Council and the East Hants District Council, will reflect the designations in their management policies and future provision.
 - f. People and Businesses will look to the plan to know the amount and location of development, particularly when buying houses or setting up businesses.

- 5.2 Progress in implementing the plan will be monitored by the South Downs National Park Authority as part of their monitoring of planning policies across the park. The results will be included in their Annual Monitoring Report. The Liss Parish Council will also monitor the plan, particularly the outcomes of the plan for Liss and how far the vision and objectives of the plan are being achieved.
