LOCAL NETWORKS There is also much that can be done on a local level:

Top tip 1

Look after your neighbours - small networks such as these mean people are known to you and support systems are manageable. Details of more local support groups with their contact details are listed below.

They may also appreciate more voluntary help – why not contact them?

Top tip 2

Where possible please make use of the most appropriate service for you - For example, if you attend St. Mary’s Church please make use of this network in the first instance. Or, if you are resident in Liss Forest, please make use of the road rep network, details of which the Liss Forest Residents Association has already circulated. For those this does not apply to, please make use of other contacts listed overleaf. All stand ready to help.
