

VILLAGE GATEWAYS COMMUNITY CONSULTATION

Proposal for the addition of gateways to the main entry routes into Liss to aid traffic calming and improve the street scene

Liss Parish Council have been working with **Hampshire County Council** and the **South Downs National Park Authority** to design bespoke timber gateways with personalised village entry signs for each of the gateways into Liss village.

We will apply for a **Section 106 Grant (“S106”)** from SDNPA to fund the gateways. S106 is money collected from developers contributions when new houses are built. It may only be spent on capital projects that provide new or improved community or social infrastructure, where a new development has, at least in part, contributed to the demand for the project. S106 cannot be used for on-going running or maintenance costs (e.g. potholes).

Where: The locations chosen for the village gateways to be located intuitively mark the transition between highway and centre of Liss village, in some locations they will replace existing signage.

- Forest Road (*see appendix - inset A*)
- Farnham Road (B3006) North Bound (*see appendix - inset B*)
- Farnham Road (B3006) South Bound (*see appendix - inset C*)
- Andlers Ash Road (*see appendix - inset D*)
- Hill Brow Road (*see appendix - inset F*)

Projects aims:

- ✓ Improve street scene of the main routes into Liss village
- ✓ Establish a clear sense of place for traffic entering Liss Village
- ✓ Mark a key transition between the highway and village space
- ✓ Help to inform drivers of a change in priorities, which will promote lower traffic speeds as motorists enter Liss village

Proposals for March 2022:

1. Create bespoke gateway and personalised signage for each of the five locations - helping establish a clear identity and sense of place at each of the main entry way
2. Remove existing village, speed and road signage and incorporate these into the new gateway - reducing street clutter and improve street scene
3. Add “SLOW” road markings on approach to Forest Road and Farnham Road (B3006 south bound) gateways - helping traffic calming
4. Replace existing bollards with wooden posts and reflective bands

We would love to hear what you think of these proposals, and any questions you may have. Please complete the short questionnaire overleaf and return to Liss Parish Council by 31/01/22:

- ✓ **Council Offices, Hill Brow Road, GU33 7LY**
- ✓ **Scan or photograph the form and send to:**
 - **assistantclerk@lissparishcouncil.gov.uk**
 - **Facebook – Liss Parish Council**

We value your privacy. Data collated in this questionnaire will only be used to inform this project, no personal data will be passed on to third-parties. Liss Parish Council's Privacy Policy can be found at www.lissparishcouncil.gov.uk

Questionnaire: *Please tick relevant box*

1. Your information:

	Yes	No
Do you live in Liss?		

2. How important do you think the following considerations are for the gateways?

	Very Important	Important	Not Important	No Opinion
Improve street scene of the main entry ways				
Establish a clear sense of place				
Mark a key transition between the highway and village space				
Help inform drivers of a change in priorities				

3. How important are the following items of the proposal to you?

	Very Important	Important	Not Important	No Opinion
Bespoke gateway and personalised signage				
Reduce street clutter				
Add "SLOW" road markings				
Replace bollards with wooden posts				

4. Please circle the sign wording you most prefer:

5. Please use this space to name any additional locations you think should have a village gateway:

6. Please use this space to make any comments you may have on the proposal including design? *Continue on a separate sheet if necessary*
